Junior Web Developer

I am a web developer and have recently completed a level 5 NVQ in web development with Code Institute. After independently studying coding through Codecademy and finding it engaging and fulfilling I have committed to pursuing web development as a career. I have since completed several projects, both front end and full stack, gaining a broad knowledge of coding languages and frameworks. With proficiency in Adobe Photoshop and Adobe XD and almost eight years of experience in specialised, customer facing roles, I am excited to apply myself toward a new opportunity.

Technical Skill Set

Technologies	Databases	Frameworks / Libraries	Version Control/Hosting
● JavaScript	● MongoDB	● Django	● Git
● HTML5	● MySQL	● Flask	● Github
● CSS3		● jQuery	● Heroku
● Python		● Materialize	● Netlify
		● Bootstrap	● Cloudinary
		● Stripe	● AWS S3

Portfolio Projects

For a full list of previous projects including links to live and demo sites as well as their code repositories please see my portfolio site.

Professional Experience

Greenlawns Kennels (live site)   2020
Web & Graphic Designer

I worked in a two person team to design and develop a website for a local business.

Key responsibilities
- Creating both low and high fidelity wireframes.
- Designing page layouts, UX and colour schemes using Adobe XD.
- Creating all custom graphics using Adobe Photoshop and sourcing 3rd party icons and images.
- Editing images provided by the client for use within the site.
- Working closely with the lead developer throughout the full development process.

Waitrose & Partners   2015 – 2021
Fruit, Vegetable and Horticulture Specialist

I worked as a specialist promoting and managing fresh produce and training partners (employees) to meet company standards.

Key responsibilities

- Engaging and advising customers to enhance their shopping experience.
- Driving and improving sales through the application of specialist product and service knowledge.
- Improving personal and team knowledge through partner training and development of documentation.
- Implementing stock management techniques to reduce waste and increase profitability.

Ceritech Audio   2013 – 2015
AV Sales Consultant

In this role I developed an expansive product knowledge of high end Hi-Fi and home cinema to design and sell custom audiovisual solutions.

Key responsibilities

- Creating bespoke audiovisual solutions to satisfy customer specifications.
- Demonstration, Installation and configuration of digital systems.
- Collaborating with expert team members to ensure customers receive their desired outcomes.
- Meeting and learning from suppliers to expand product and industry knowledge.

Education & Training

Education:

2021-2022	Code institute - Level 5 NVQ - Diploma in Web App Development
2018-2019	Waitrose - Internal qualification - Fruit, Vegetable and Horticulture Specialist
2015	Ceritech Audio - Level 2 NVQ - Customer service

A Levels	Music Technology, Music, Physics, Biology
GCSE	11 of grade C or above including Maths and English

Technical Courses Completed:

2019+	Codecademy	Javascript, C#, CSS, SCSS, RegEx and others.

Interests & Additional information

- I participated in the Code Institute Pride Hackathon; Our project 'Light Up' won 2nd place!
- I am a passionate musician and play the flute (grade 7) and guitar to a high standard as well as several other instruments.
- I am an avid climber and particularly enjoy the combination of problem solving with both strength and flexibility training.
- I enjoy reading, especially sci-fi and fantasy works.
- I hold a full UK Drivers License.
